### SUMMARY

---

Passionate and skilled Full Stack Developer with a year of experience in designing, developing, and deploying high-quality software solutions. Proficient in Python and JavaScript, with expertise in modern web development frameworks such as React, Node.js, and Flask. Experienced in database management (PostgreSQL, SQLite), CI/CD pipelines, and version control systems like Git.

### SKILLS

---

- JavaScript
- Python
- SQL
- Node
- React.js
- Tailwind css
- Restful APIs
- CI/CD
- Flask

### EXPERIENCE

---

#### Junior Developer | Self Driven Projects

2023 - Present

- Designed and implemented dynamic web applications with React and Node.js. Developed and deployed scalable Restful APIs for seamless client-server communication.
- Built CI/CD pipelines to automate testing and deployments, reducing release times. Collaborated on team projects using Git for version control and effective code management.
- Created accessible and visually appealing user interfaces, focusing on responsive design.
- Scheduled client meetings to gather requirements and refine development strategies.

Key Accomplishments: *(to add if you have outstanding achievements/metrics)*

- Significantly reduced problem resolution time by 50% which lead to more time for project upgrades.

### Volunteer Experience

---

- **Design Thinking Hackathon:**

I participated in the hackathon with my team, and we were awarded the Judges' Favorite position.

### EDUCATION

---

**Riara University** | Bachelor of Computer Science

Expected Dec. 2028

### Volunteer Experience

---

- **Design Thinking Hackathon:**

I participated in the hackathon with my team, and we were awarded the Judges' Favorite position.

**Moringa School** | Software Development

Aug. 2024
